PROFILE SUMMARY

Motivated and detail-oriented B.Tech (Hons.) student specializing in Artificial Intelligence and Machine Learning, with hands-on experience in software development, research projects, and data analysis. Strong in problem-solving, critical thinking, and collaborative abilities, demonstrated through team projects and participation in competitions. Aspiring AI/ML Engineer, eager to contribute in innovative AI/ML projects and gain practical industry experience.

EDUCATION

Adamas University, Kolkata

B. Tech (Hons.) in Computer Science (AIML) - Expected Graduation: 2027

CGPA - 8.23

Shrimanta Shankar Academy - CBSE

- Class 12 (2023) - 82%
- Class 10 (2021) - 91%

TECHNICAL SKILLS

- Programming languages - Java, Python, C, C++
- Web Technologies - HTML, XML
- Database - MySQL
- Tools & Frameworks - Streamlit, NumPy, pandas, data preprocessing, model training
- Core Strengths - Leadership, innovative, teamwork, problem decomposition, communication, analytical thinking, adaptability to new technologies

PROJECTS

Synthetic Data Generator (Demo Tool) - Python, Streamlit

- Developed an interactive tool to upload and visualize tabular, time-series, and image datasets.
- Enhanced data analysis workflow upto 30% by enabling efficient visualization and preview functions.

Hand Gesture Controlled Robotic Arm - IoT, Embedded Systems

- Designed a gesture-based robotic arm for industrial task automation.
- Enabled precise motion control and operational efficiency using real-time sensor input.

CERTIFICATIONS

- Web Security - Find and Fix Bugs Like a Pro – Devtown (Supported by Microsoft Student Chapter – MSIT & Google Developers Group – VIT-AP)
- Smart India Hackathon (College-Level Selection Round) - Collaborated with a team of 4 members and 1 tester to develop AI/ML-based software solutions under mentor guidance

ACHIEVEMENTS

- 2nd Place in AVENZA Hackathon (IEEE IEM Student Branch, 2021) - Recognized for problem-solving, teamwork, and effective communication during multi-round competitions
- Participated in Hack-o-Nova and Smart India Hackathon, demonstrating creativity and adaptability in solving technical problems

LANGUAGES KNOWN

English, Bengali, Hindi, Assamese
