PROFILE SUMMARY

Motivated and detail-oriented B.Tech student specializing in Artificial Intelligence and Machine Learning, with hands-on experience in software development, research projects, and data analysis. Strong problem-solving, critical thinking, and collaborative abilities demonstrated through team projects and participation in competitions such as the Smart India Hackathon. Eager to contribute to innovative AI/ML projects and gain practical industry experience.

EDUCATION

2011-2023

SHRIMANTA SHANKAR ACADEMY

(CBSE) | 12th 82% - 2023
10th 91% - 2021

2023-2027

ADAMAS UNIVERSITY (NAAC A)

B.Tech (Hons.) Computer Science Engineering (Artificial Intelligence and Machine Learning) - 3rd Year, 5th Sem.
CGPA - 8.23

PROJECT

- Synthetic Data Generator (Demo Tool) | Python, Streamlit
- Built a Streamlit tool to upload and visualize tabular, time-series, and image files.
- Developed a Hand Gesture Controlled Robotic Arm to automate industrial tasks, enabling precise motion control and improving operational efficiency.

STRENGTHS

- Communication and Presentation: Effectively presented software and AI/ML solutions in hackathons and team projects, clearly conveying technical concepts to mentors, judges, and team members.
- Adaptability: Efficiently adapts to new technologies and evolving project requirements in technical and collaborative environments.

ACHIEVEMENTS

- Runners-Up, AVENZA - IEEE Computer Society, UEM Kolkata
- Recognized for technical and non-technical excellence in problem-solving, teamwork, adaptability, and communication during a multi-round competition.

SKILLS

- Programming languages - Java, Python, C, C++.
- Web Technologies - HTML Databases - MySQL
- Led a team in developing an innovative solution during the SIH college-level selection round. Demonstrated leadership, collaboration, and problem-solving skills while coordinating tasks and guiding the team.

LANGUAGES

- English: Fluent
- Bengali: Fluent
- Hindi: Fluent
- Assamese: Fluent

CERTIFICATIONS AND COURSES

- Web Security: Find and Fix Bugs Like a Pro - Devtown (Supported by Microsoft Student Chapter - MSIT & Google Developers Group - VIT-AP)
Secure coding, ethical hacking, and debugging real-time security challenges.
 - Participant - Smart India Hackathon (College-Level Selection Round)
- Collaborated in a 4-member team to develop a software solution, demonstrating problem-solving, teamwork, and adaptability in a competitive environment.
